CARDS

Technique Class – Part 1: Simply Ir-RESIST-ible with SUSAN \$34 includes Material Kit

In real estate it is all about Location! Location! Location! In craft it is all about Technique! Technique! Technique!

For the next couple of months another teacher (Jet) and I will be focussing on techniques which are great if you are new to paper craft, if you want to learn a new technique or simply just brushing up on your skills. These techniques can be used in cards, layouts, off the page projects and mixed media. In each class you will be taught various ways to perform the technique(s) and then use these techniques to make finished project(s). You will also make up tags to create sample pages of the techniques taught, with instructions, so you have something to refer to at home.

This month's class the focus is on **RESIST** techniques. You will make two (2) finished projects using techniques you were taught. One project is a Christmas Card (yes time to get started on Christmas Cards) and the other is a fun card which would suit many occasions. We will also create a couple of background/card toppers for you to take away.

Each of my cards has its own unique style on the outside, and I have added some decorative touches to the inside of each card also. There will be lots of papers left for you to recreate each card or you can use the ideas from class to create more cards in your own style.
